

OUR JOURNEY

From introducing European cutting-edge technologies to the middle east polyurethane markets...

Established the first PU system house in the Middle East region with prepolymer technology.

1994

Launched a polyurethane system house in 6 of October, **Egypt**, to serve the Egyptian and African markets.

2008

Acquired a majority stake in Polysystem Srl, an Italian producer of PU systems, and established BCI Europe Srl to serve the European polyurethane systems market.

2016

Acquired BASF Kanoo LLC Dubai, BASF's GCC Polyurethane business headquartered in Dubai Industrial City (DIC).

2022

New Expansion in Egypt
April 2027 with more capacity, smarter logistics, and greater responsiveness

2027

2005

Established a polyurethane system house in Hamriyah Free Zone, UAE, to serve the GCC markets.

2013

Inaugurated a plant for the production of polyester polyols, isocyanate prepolymers, and flexible packaging adhesives in **Egypt**.

2018

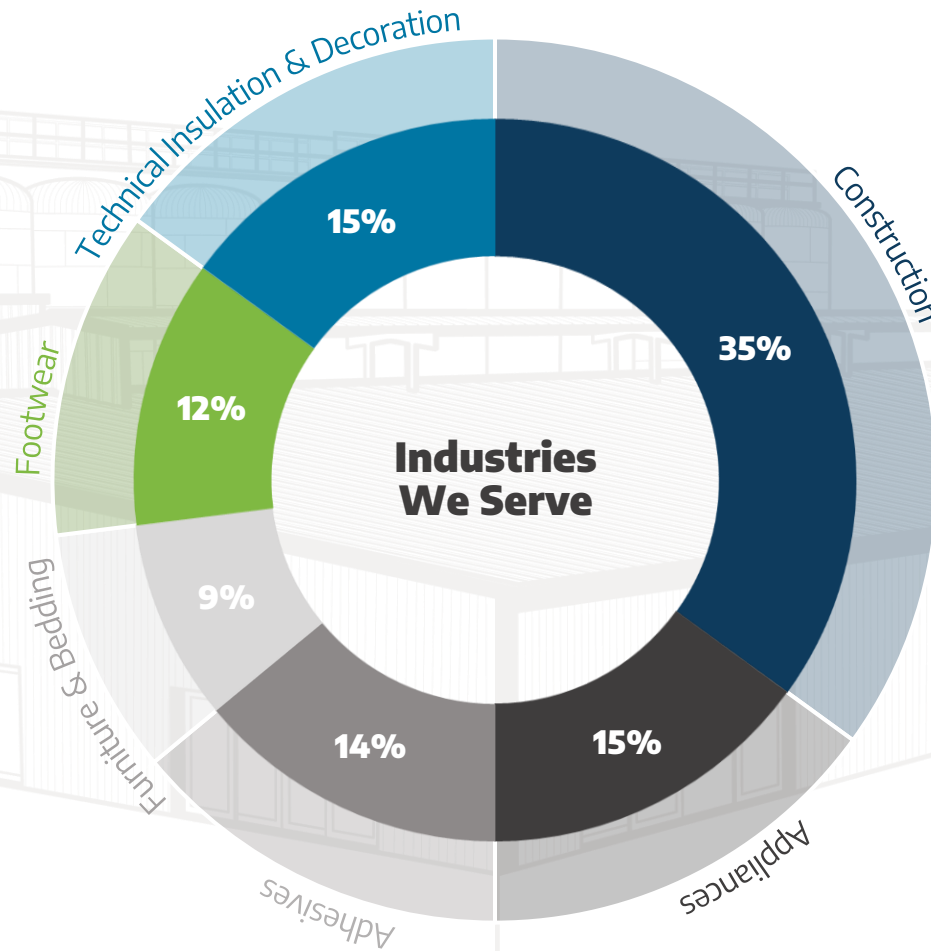

Commissioned the first flexible packaging adhesives manufacturing facility in Mersin-Tarsus Industrial Zone, Türkiye

2024

Established BCI Arabia and built a state-of-the-art system house for downstream polyurethane systems in Riyadh, serving the KSA market and contributing to the goals of Saudi Vision 2030.

INDUSTRIES WE SERVE

Through customer proximity and technical intimacy, we help develop industries across the various verticals we serve

OUR ASSET FOOTPRINT

EMEA's leading independent producer of polyurethane systems, polyester polyols, specialty adhesives & prepolymers.

Capacity to produce

> 200,000 MT/annum

> 200,000 drums, IBCs & storage capacity

> 500 team members

11 legal entities

> 19 different nationalities

> 48 countries served

OUR ASSET FOOTPRINT

With a unique asset footprint securing supply consistency, customer service, and customer-driven innovation.

System Houses

UAE (Dubai & Sharjah), Egypt, KSA, Italy, and Türkiye

Technical Service Centers

Nigeria and Jordan.

Logistic Centers

UAE (Dubai, Sharjah), Egypt, KSA, Italy, Türkiye, Nigeria, and Jordan.

Polyester Polyols Plants

UAE (Sharjah) and Egypt

3,000
MT/annum bulk store capacity

Prepolymer Plants

UAE (Sharjah), Egypt, and Türkiye

OUR NETWORK

A unique network of production plants, system houses, and distribution centers across 3 continents and 8 countries... and expanding

OUR ADHESIVES NETWORK

Expert R&D and technical service teams, backed by state-of-the-art technology, working closely with customers to deliver consistency and reliability they can count on

OUR SOLUTIONS

A comprehensive tailored product range built on expertise in supplying raw materials to industries and our passion for PU chemistry

PRODUCT GROUP	SUBGROUP	BCI BRAND	MAJOR APPLICATIONS
PU Systems	PU Rigid Systems	POLYREX [®] - PROMOL [®]	Continuous & discontinuous panels; appliances; block foam; ducts; window shutters; wood imitation; etc.
	PU Flexible Molded Systems		Office furniture; auto parts; Visco elastic memory foam; rebounded foam
	Panel Glue	STYROBOND [™]	Adhesives for PIR, EPS/XPS and Rockwool Panels Adhesives for PIR, EPS/XPS and Rockwool Panels
	Additives	ADDREX [™] - TEMOL [®] ; TEMFLAME [®]	Various additives for PU systems
Flexible Packaging Adhesives	Solvent Less	ECOLAD SL [®]	Standard, medium and high-performance solvent less adhesives for flexible packaging
	Solvent Base	ECOLAD SB [®]	Standard, medium and high-performance solvent base adhesives for flexible packaging
Footwear Systems	PU Footwear Systems	POLYREX [®]	PU Systems for the production of soles, slippers, fashion, casual, sport ,and safety shoes
		ISOREX [™] - ISOTEM [®]	
		CROSSREX [™]	
	Additives	ADDREX [™]	Agents for cleaning, curing, and crosslinking
Polyester Polyols	Aromatic	PUROL [™]	Rigid PU foam
	Aliphatic	BASIS [™]	CASE and PU flexible slabstock
Coatings, Adhesives & Sealants Raw Materials	Coatings Prepolymers	ISOREX RC [™]	Rubber and cork granule binder; sports flooring systems
	High MW Polyester Polyols	POLYMELT [™]	Specialty binders for various applications
Auxiliaries	Polyurea	POLYCOAT [™]	Various coatings
	Catalyst	AMINOREX [™] - TEMCAT [®]	Various applications
	Pigments/Master Batch	MATREX [™]	Coloring master batch for footwear and flexible foam
	Release Agent	SILOREX [™]	Mold release agent for molded PU foam
	Silicone Surfactant	ADDREX [™]	Silicone Surfactant for flexible and rigid foam
Trading Raw Materials	Polyether Polyols	EPOL [™]	Continuous and discontinuous flexible foam
	TDI	ISOREX [™]	

OUR TEAM - Rigid and Cold Cure systems

A unique blend of industry veterans and emerging leaders sharing a passion for BCI's slogan: **A Partner for Life**

Ahmed Arafa
Senior Manager
Commercial Management
With the Group since 2009.

Abdallah Samir
Sales Executive
Sales & Technical Service
With the Group since 2018.

Mohamed Ali
Section Head
Sales & Technical Service
With the Group since 2015.

OUR TEAM - Footwear and Auxiliaries

A unique blend of industry veterans and emerging leaders sharing a passion for BCI's slogan: [A Partner for Life](#)

Waleed Saad
Manager
Commercial Management
With the Group since 2018.

Ahmed Yahia
Sales Executive
Sales & Technical Service
With the Group since 2016.

Mustafa Abbas
Section Head
Sales & Technical Service
With the Group since 2023.

OUR TEAM - Flexible Packaging Adhesives

A unique blend of industry veterans and emerging leaders sharing a passion for BCI's slogan: **A Partner for Life**

Mohamed Gamal
Senior Manager
Commercial Management
With the Group since 2016.

Rabiee Melegi
Manager
Technical Operations
With the Group since 2018.

Mahmoud Omran
Section Head
Sales & Technical Service
With the Group since 2018.

STANDARDS & CERTIFICATIONS

Driving responsible, customer-centric growth with global standards

Certified to International ISO Standards

ISO 9001

Certifies our commitment to consistent quality, customer satisfaction, and continual improvement.

ISO 14001

Confirms our responsibility to manage environmental impact and promote sustainability.

ISO 45001

Ensures a safe and healthy workplace by minimizing risks and protecting people.

Guarantees that packaging is safe for human health, protective throughout its lifecycle, and provides clear information to end users.

Reflects our commitment to waste reduction, recycling, and responsible resource use.

Confirms our commitment to sustainable practices, ethical sourcing, and supply chain integrity.

Supports recyclable packaging design and reflects our commitment to circularity and responsible material choices

• Energy-Efficient Manufacturing Systems

Fully automated production lines with SCADA systems achieving:

➤ Real-time process data monitoring and data logging for analysis, troubleshooting, and optimization.

• Signature Technology

Proprietary technology converting post-consumer PET into polyester polyol for insulation applications:

➤ Supporting circular economy goals and reducing reliance on virgin materials, minimizing waste and environmental impact.

NEW LOGISTIC CENTER

A new state-of-the-art logistics and commercial center, integrating environmentally responsible distribution solutions for packaged and bulk materials.

The center will also house modern offices for our commercial teams, reinforcing BCI's customer-centric approach and commitment to operational excellence across local and export markets

Our strategy is simple: Remain geographically and strategically close to customers; value relationships before transactions; maintain product, people and approach consistency; and foster responsible entrepreneurship and partnerships. This creates a unique value proposition for customers, suppliers and stakeholders at large and the confidence that they can rely on BCI as their **Partner for Life.**

Dr. Ihsan Baalbaki
